

REMAN AND RETURN SERVICE.

REMAN AND RETURN SERVICE.

We offer a Reman Service for non stock items where we have sufficient materials to do so.

Turnaround usually takes 5-7 working days. However, we cannot guarantee to reman all items as it is subjective to the condition of the item and parts being available to carry out the reman. We always inspect the returned item and will advise before we go ahead.

We would advise the production charge as below and the carriage collection charge.

NB: Any parts we are unable to reman will be returned and only the carriage charges implemented.

Product Group	Fee	Part Number
Brake Caliper	£20	R&RCALIPER
