BRAKE CALIPERS

Quality remanufactured in the heart of the UK

Our premium remanufactured brake caliper range consists of 5,300 part numbers.

With exceptional car parc coverage, you can be sure that we'll have what you want, when you want it.

Should you need an unusual caliper, we also offer an efficient 'Reman & Return' service. All calipers are supplied in anti-corrosion rust prevention packaging to extend the parts shelf life and to ensure that your remanufactured caliper reaches you 'factory fresh'.

Remanufacturing as it should be

To us, remanufacturing isn't just a poorer substitute for 'new' - it's a process which results in components that are as good as new and perform that way, too. We've been doing it since 1979, so we know what we're talking about.

Take our range of brake calipers. Each one is stripped right back to the original casting, inspected to ensure that there are no defects, refurbished to the original state and then reassembled by hand using all new components. That means 100% new pistons, springs, actuation and seals.

Nothing is left untouched and everything is completely renewed to the highest quality of ISO 9001:2015.

After assembly, each individual caliper is 100% pressure tested beyond the capacity experienced on the vehicle. That's why with confidence, we supply a 24 Month, 24,000 Mile/38,000 km warranty.

Shaftec's market leading range of electric parking brake calipers marries quality with value for money - remanufactured core with a new motor.

At Shaftec, everything we do is carried out under one roof at our remanufacturing plant in the heart of the UK.

To find out more about the full Shaftec range of remanufactured Brake Calipers, Steering Racks, Steering Pumps and Driveshafts, as well as our new Driveshafts, CV Joints, Propshafts, CV Boot Kits, Steering Pumps, and Steering Gaiter Kits, contact us by e-mail at sales@shaftec.co.uk or visit us at www.shaftec.com

"That's why with confidence, we supply a 24 Month, 24,000 Mile/38,000 km warranty."
