BRAKE CALIPERS

Quality remanufactured in the heart of the UK

Our SELECT range of premium brake calipers consists of over 420 part numbers.

Each one is stripped right back to the original casting, inspected to ensure that there are no defects, refurbished to the original state and then reassembled by hand using all new components. That means 100% new pistons, springs, actuation and seals.

Nothing is left untouched and everything is completely renewed to the highest quality of ISO 9001:2015.

After assembly, each individual caliper is 100% pressure tested beyond the capacity experienced on the vehicle. That's why with confidence, we supply a 24 Month, 24,000 Mile/38,000 km warranty.

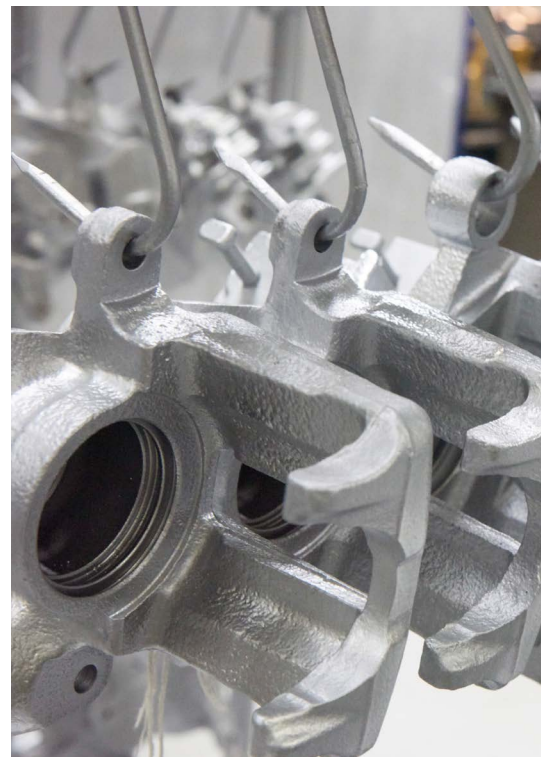

Shaftec's market leading range of electric parking brake calipers marries quality with value for money - remanufactured core with a new motor.

Everything we do is carried out under one roof at our remanufacturing plant in the heart of the UK.

Same great quality as our full programme;

- Surcharge Free
- Includes EPB (Electronic Parking Brake)
- Core buy back scheme
- 24 Month, 24,000 Mile warranty
- Excellent availability and next day delivery
- Backed by the highest marketing, data and cataloguing support

To find out more about the full Shaftec range of remanufactured Brake Calipers, Steering Racks, Steering Pumps and Driveshafts, as well as our new Driveshafts, CV Joints, Propshafts, CV Boot Kits, Steering Pumps, and Steering Gaiter Kits, contact us by e-mail at sales@shaftec.co.uk or visit us at www.shaftec.com
